Earning a lakh/month is a dream goal to many freelancers.

Unfortunately, majority believes its impossible. And, from the data I found after talking these many freelancers, I realized only a few are able to unlock income of 1Lakh₹/month.

So, what are they doing different?

And, what are those 95% of the freelancers doing wrong?

I am going to reveal that here in this eBook.

MY FIRST OBSERVATION

I observed that these 95% of freelancers were spending majority of their time on any of these following things:

- *Leaning new skills*
- Learning new *AI tools*
- Updating their *portfolio* to attract clients
- Building their *website* to showcase their services & testimonials
- *Posting on social media* consistently
- Creating reels and *build followers base*
- Attending *workshops* from thought leaders they found from Meta Ads
- Reading books they discovered in any reel
- Trying to *build passive income* too

You might be curious to ask...

SO, AREN'T THESE THINGS
IMPORTANT?

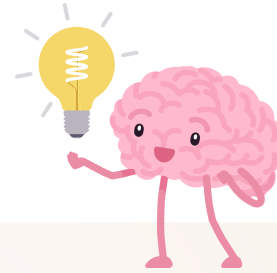

These are important things...
but for YOU.
NOT FOR THE CLIENTS

*Your goal isn't to earn
1Lakh/month from yourself but
clients...*

RIGHT?

ADMIT TO THIS FACT

If you want to earn 1Lakh rs/month. You need to focus down to the client's work. Not your own chores.

BUT... I don't have any clients?

I therefore observed those 5% freelancers to find out why they were doing different to get such high paying clients?

I identified 2 common things.

THEIR 2 MAIN STRENGTHS

1

A **strong offer** that clients find hard to deny

2

A **powerful acquisition funnel** that bring them such clients regularly

A STRONG FREELANCING OFFER?

Majority of those 95% of the freelancers **pitch unprepared**. They were *killing* their own opportunities with;

- ❌ No research of client's business
- ❌ Trying to sell their skills
- ❌ No risk reversal strategy
- ❌ Vague offer with no clear outcome

MENTORSHIP ALERT

With my 10 sessions, I help freelancers build an offer;

- ✅ *that is hard to reject*
- ✅ *personalized for your client*
- ✅ *that brings upfront payment*
- ✅ *that can slowly earn you 1lakh/month*

A STRONG SALES FUNNEL

What sets apart the “1L/month earning” freelancers from the rest is their **lead funnel**. They don't try to pitch when they've lost a client. They keep their lead pipeline full, which is why they never go broke.

But how exactly do you build a strong sales funnel?
